PROFESSIONAL SUMMARY

Motivated and detail-oriented technical professional with knowledge in Computer Systems, Python programming, and Machine Learning fundamentals. Passionate about teaching and helping students understand technology in a simple and practical way. Skilled in handling computer labs, system troubleshooting, and creating interactive learning experiences.

EDUCATION

B.A. English and Communication (Integrated) — Thiruvalluvar University, Vellore, Tamil Nadu

Certification in AI & Machine Learning — Python, Data Analysis, and Machine Learning concepts

TECHNICAL SKILLS

Programming: Python (Basic to Intermediate), SQL

Computer Knowledge: Hardware Basics, Software Installation, Troubleshooting

Tools: MS Word, Excel, PowerPoint, Power BI

Platforms: VS Code, Jupyter Notebook, Google Colab

Data Skills: Data Cleaning, Visualization, Basic Analysis

PROJECT EXPERIENCE

Sales Prediction using Machine Learning — Built a basic ML model to demonstrate prediction techniques; cleaned and analyzed data using Python libraries; created simple charts to explain results clearly.

Power BI Dashboard Project — Developed interactive dashboards using charts and filters; used real datasets to present insights in an easy-to-understand format.

SYSTEM & LAB MANAGEMENT

Computer lab setup and maintenance • Software installation and updates • Basic networking and system handling • Troubleshooting hardware and software issues

EDITING & DIGITAL SKILLS

Video Editing: CapCut (basic educational content) • Image Editing: Photoshop (basic) • Document Preparation: MS Word, PowerPoint

SOFT SKILLS

Communication and Teaching Ability • Problem Solving • Patience and Adaptability • Time Management

LANGUAGES

Tamil (Native) • English (Proficient) • Hindi (Basic)

OBJECTIVE

To work as a Technical Instructor in a school where I can teach computer fundamentals, manage technical systems, and support students in developing strong digital skills.
